How to "Drive your TRACKTOR"

This booklet will help you track your money!

First, decide what percentages you are going to **Share**, **Save** and **Spend** then write them on the two worksheets and your barns.

Emptying the Barns – helps you track what you do with your money. Record each time you share money, make a deposit at Kindred, or buy something you want.

Filling the Barns – helps you track the money you receive. Record the date and amounts in the columns (see example) each time you receive money.

Example: You got \$10.00 as a gift!
 You want to **Share** 10% ($\$10.00 \times 0.10 = \1.00).
 You want to **Save** 40% ($\$10.00 \times 0.40 = \4).
 The rest you want to **Spend** ($\$10.00 - (\$1 + \$4) = \5).

The following week you got \$5 in allowance and added that to your barns (recording the total for each barn in the shaded row).

Date	Share 10 %	Save 40 %	Spend 50 %	Total
Jan 1/11	\$1.00	\$4.00	\$5.00	\$10.00
	Total	Total	Total	
Jan 8/11	\$0.50	\$2.00	\$2.50	\$5.00
	\$1.50	\$6.00	\$7.50	\$15.00
